UI/UX Designer with a background in Computer Engineering and experience in conducting user research and designing intuitive SaaS interfaces and responsive layouts at Progressive Labs. Passionate about translating complex user needs into clear, accessible, and user-centered design solutions.

EXPERIENCE

Associate UI/UX Designer | *Progressive Labs, Nepal* **Sept 2025 – Nov 2025**

- Conducted UX research to identify Ideal Customer Profiles (ICPs) and user needs, documenting findings to address pain points and product discovery challenges across projects including **Watobu, Foundery USA, Nihongo Nepal and Nihongo Global.**
- Applied product thinking to evaluate existing experiences, identify usability gaps, and translate user needs and business objectives into actionable design opportunities.
- Contributed to product experience design by refining information architecture and navigation to create intuitive user experiences with clear feature presentation and consistent interfaces.
- Researched and documented SaaS interfaces, features, and user flows across CRM, project management, AI voice agents, MDM, and vibe-coding tools to inform product design decisions.

UI/UX Designer Intern | *Progressive Labs, Nepal* **July 2025 – Sept 2025**

- Applied core UI/UX design principles, including visual hierarchy, alignment, spacing, and accessibility considerations, to create intuitive and user-centered interfaces.
- Executed pixel-precise UI designs, maintaining visual consistency across screens and layouts through reusable components.
- Designed an end-to-end product concept as an internship project, translating initial requirements into information architecture, low-fidelity wireframes, user flows, and a final design concept.

Design Intern | *ECS Media, Nepal* **Jan 2025 – Aug 2025**

- Assisted in creating visual assets for digital and print media using Adobe Photoshop and InDesign.
- Designed social media graphics, posters, and promotional materials aligned with brand guidelines.

EDUCATION

Bachelor in Computer Engineering **Apr 2021 – Apr 2025**
Kathmandu Engineering College, Tribhuvan University, Nepal 80.79%

Higher Education – Science **2018 – Nov 2020**
United Academy, Lalitpur, Nepal CGPA: 3.78

SKILLS

Product & Research: Competitive Analysis, Usability Analysis, Product Thinking, Feature Discovery

UX Design: User Research, Information Architecture, User Flow Design, Wireframing, Prototyping, Usability Testing, Accessibility

UI Design: Visual Hierarchy, Responsive Design, Design Systems, Component-Based Design, Interaction Design
